

SYSCO Branded Premium Pork Products Produced By

CALUMET
Diversified Meats Inc.

Terms You Should Know

- **#1 Butcher Hogs:** An animal, male or female, that is raised strictly for meat. Weight range 195 lbs. to 320 lbs.
- **False Lean:** The cutaneous muscle imbedded in the fat overlying the shoulder area of the pork side. It is exposed when the loin is closely trimmed.
- **Injected:** Meat cuts, which have natural solutions, introduced throughout the muscles by injection or pumping for added moisture and to enhance juiciness. Also referred to as pumped, processed with, seasoned or marinated.
- **Fresh Frozen:** Meat that has been reduced in temperature to below 32 degrees Fahrenheit to promote a longer shelf life and seal in freshness.
- **Portion Control Cuts:** Items which have been cut, sliced, or formed to specific weights or thickness.

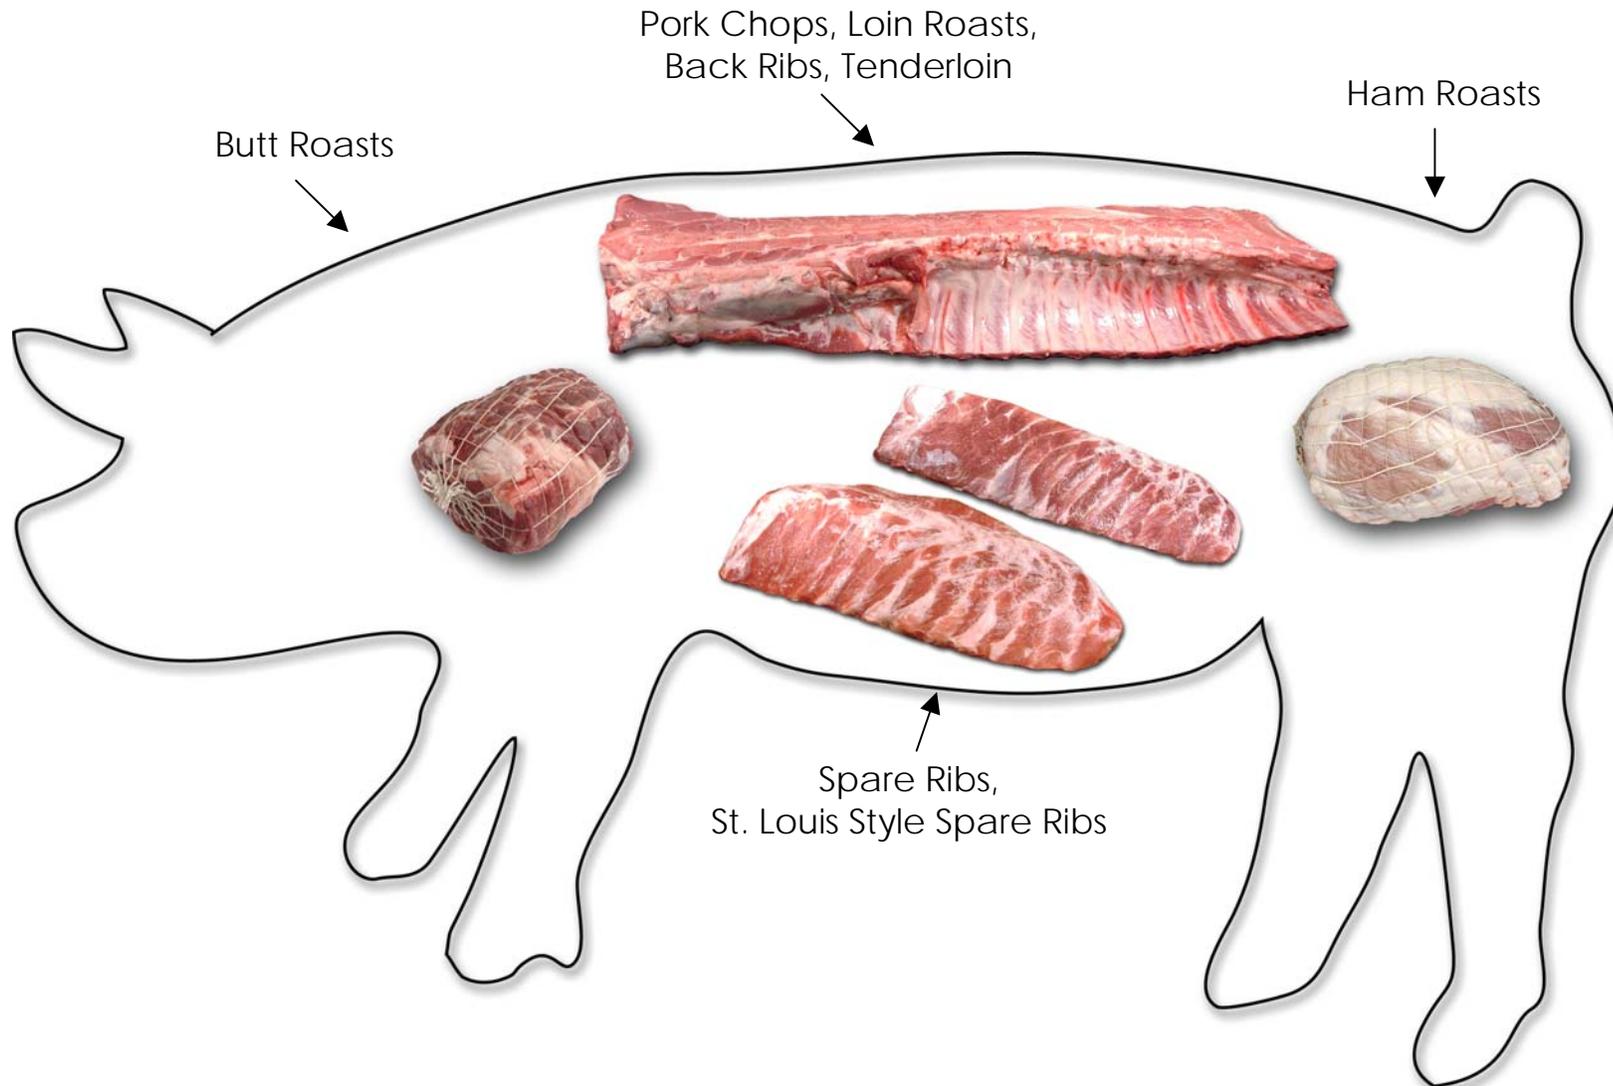

Advantages of SYSCO Branded Pork

- Fresh raw materials from #1 butcher hogs are received at Calumet plant 3-5 days after the kill and are frozen within a day of receipt
 - Guarantees the freshest product possible and ease of handling with less waste.
 - Guarantees superior flavor and tenderness.
- Automatic Portion Control machines cut up to 180 chops per minute to produce the highest quality pork products with consistent customer satisfaction.
- Product is layer packed and poly lined in tamper proof boxes.
 - Prevents product from sticking together.
 - Prevents freezer burn.
- Boxes are perfect weight for easy food cost analysis for the operator.
- Our Four Star Inspection Policy ensures that we provide products and services that exceed our customer's expectations – every time.
- SYSCO and Calumet Quality Assurance Staff perform inspections in all aspects of operations from the receipt of raw material followed through the final shipment of product.
